### INDEPENDENT AUDITOR'S REPORT

To The Members of Cello Houseware Private Limited  
Report on the Audit of Financial Statements

#### Opinion

We have audited the accompanying Financial Statements of **CELLO HOUSEWARE PRIVATE LIMITED** ("the Company"), which comprises of Balance Sheet as at March 31, 2023, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the Financial Statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, its profit including other comprehensive income, its cash flows and changes in equity for the year ended on that date.

#### Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements for the year ended March 31, 2023. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters for each matter.

There are no key audit matters identified in our audit.

### **Information Other than the Financial Statements and Auditor's report thereon**

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the Financial Statements and our auditor's report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management for the Financial Statements**

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that individually or in aggregate makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in

- (i) planning the scope of our audit work and in evaluating the results of our work and
- (ii) to evaluate the effect of any identified misstatement in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements for the financial year ended March 31,

2023 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the **Annexure "A"** a statement on the matters specified in paragraphs 3 and 4 of the Order.

### Annexure B to the Independent Auditor's Report of even date on the Financial Statements of Cello Houseware Private Limited

(Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date)

### Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to Financial Statements of **Cello Houseware Private Limited** ("the Company") as of March 31, 2023, in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these Financial Statements based on our audit. We have conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based

on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements

#### **Meaning of Internal Financial Controls with reference to these Financial Statements**

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that:

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company and;
3. provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls with reference to these Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Financial Statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

- II. Held primarily for the purpose of trading.
- III. Expected to be realized within twelve months after the reporting period, or
- IV. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when:

- I. It is expected to be settled in normal operating cycle.
- II. It is held primarily for the purpose of trading
- III. It is due to be settled within twelve months after the reporting period, or
- IV. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

Deferred tax assets and liabilities are classified as non-current assets and liabilities. Advance tax paid is classified as non-current assets.

#### **c) Operating cycle**

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act 2013. Based on the nature of services and the time taken between acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of the classification of assets and liabilities into current and non-current.

## **2.2. Basis of measurement**

### **a) Basis of accounting**

The Company maintains its accounts on accrual basis following historical cost convention, except for certain assets and liabilities that are measured at fair value in accordance with Ind AS. Fair value measurements are categorized as below based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety:

- I. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date;
- II. Level 2 inputs are inputs, other than quoted prices included in level 1, that are observable for the asset or liability, either directly or indirectly; and
- III. Level 3 inputs are unobservable inputs for the valuation of assets or liabilities.

Above levels of fair value hierarchy are applied consistently and generally, there are no transfers between the levels of the fair value hierarchy unless the circumstances change warranting such transfer.

Further information about the assumptions made in measuring fair values is included in the following notes:

- Financial instruments

**CIN : U25209MH2021PTC362199**

**Notes to the financial statements as at March 31, 2023**

**All amounts are ₹ in lakhs unless otherwise stated**

**b) Use of estimates and judgements**

In preparing these Financial Statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively in the Statement of Profit and Loss in the year in which the estimates are revised and in any future periods affected.

The areas involving critical estimates or judgements are:

- i. Determination of useful lives of property, plant and equipment and intangibles
- ii. Impairment test of non-financial assets
- iii. Recognition of deferred tax assets
- iv. Recognition and measurement of provisions and contingencies
- v. Fair value of financial instruments
- vi. Impairment of financial assets
- vii. Measurement of defined benefit obligations
- viii. Revenue recognition
- ix. Determination of incremental borrowing rate for leases

**2.3. Significant accounting policies**

**a) Property, Plant and Equipment:**

Recognition and measurement:

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

The cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes (after deducting trade discounts and rebates), any directly attributable costs of bringing the asset to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on derecognition of an item of property, plant and equipment is included in Statement of Profit and Loss when the item is derecognised.

Subsequent expenditure:

**Cello Houseware Private Limited**

**CIN : U25209MH2021PTC362199**

**Notes to the financial statements as at March 31, 2023**

**All amounts are ₹ in lakhs unless otherwise stated**

Subsequent costs are included in the assets carrying amount or recognised as a separate asset, as appropriate only if it is probable that the future economic benefits associated with the item will flow to the Company and that the cost of the item can be reliably measured.

The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repair and maintenance are charged to the Statement of Profit and Loss during the reporting year in which they are incurred.

#### Transition to Ind AS

With effect from June 02, 2021, Cello Industries (the "erstwhile partnership firm") has been converted to Cello Houseware Private Limited. Pursuant to the provisions Chapter XXI, Part I of the Companies Act, 2013, the assets and liabilities of the erstwhile partnership firm have been transferred to the Company. Accordingly, adjustments made to the carrying amounts of assets and liabilities of the erstwhile partnership firm to conform with Ind AS as on the transition date, have been carried forward to the Financial Statements of the Company as explained in note 2.1 (a) and note 43.

#### Depreciation:

Depreciation on property, plant and equipment, is provided under the written down value method in the manner prescribed under Schedule II of the Act.

For certain items of Property, Plant and Equipment, the Company depreciates over estimated useful life which are different from the useful lives prescribed under Schedule II to the Companies Act, 2013 which is based upon technical assessment made by the technical expert and management estimate. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. The estimated useful lives, residual values, and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on prospective basis

Category of property, plant and equipment	Estimated useful life of property, plant and equipment (Years)
Computers	3 Years
Office Equipment	15 Years
Furniture & Fixtures	10 Years
Vehicle	8 Years
Plant & Machinery	15 Years
Plant & Machinery -Fire Extinguishers & System	5 Years
Moulds, Dies & Jigs	8 Years
Electric Installations	10 Years
Building - Office Premises	60 Years
Building - Factory	30 Years

Leasehold land is amortized over the period of lease. Buildings constructed on leasehold land are depreciated based on the useful life specified in Schedule II to the Companies Act, 2013, where the lease period of land is beyond the life of the building. In other cases, buildings constructed on leasehold land is amortized over the primary lease period of the land.

Depreciation on property, plant and equipment which are added / disposed of during the year, is provided on pro-rata basis with reference to the date of addition / deletion.

**b) Capital work in progress and Capital advances :**

Cost of assets not ready for intended use, as on the end of the reporting period, is shown as capital work in progress.

Advances given towards acquisition of fixed assets outstanding at end of each reporting period are disclosed as other non-current assets.

**c) Intangible Assets:**

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses. Internally generated intangibles, excluding eligible development costs are not capitalized and the related expenditure is reflected in the profit and loss in the period in which the expenditure is incurred.

Transition to Ind AS

With effect from June 02, 2021, Cello Industries (the "erstwhile partnership firm") has been converted to Cello Houseware Private Limited. Pursuant to the provisions Chapter XXI, Part I of the Companies Act, 2013, the assets and liabilities of the erstwhile partnership firm have been transferred to the Company. Accordingly, adjustments made to the carrying amounts of assets and liabilities of the erstwhile partnership firm to conform with Ind AS as on the transition date, have been carried forward to the Financial Statements of the Company as explained in note 2.1 (a) and note 43.

Amortization:

Amortisation is recognised on a written down value basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

The estimated useful lives as mentioned below :

Description of the asset	Estimated Useful Life (Years)
Software	3 Years
Designs and Patents	10 Years

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

**Cello Houseware Private Limited**

**CIN : U25209MH2021PTC362199**

**Notes to the financial statements as at March 31, 2023**

**All amounts are ₹ in lakhs unless otherwise stated**

**d) Impairment of non-financial assets:**

At each reporting date, the Company reviews the carrying amounts of its property, plant and equipment, and intangible assets to determine whether there is any indication that those assets have suffered an Impairment loss. If any such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest Company of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Statement of Profit and Loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease and to the extent that the impairment loss is greater than the related revaluation surplus, the excess impairment loss is recognised in the Statement of Profit and Loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss to the extent that it eliminates the impairment loss which has been recognised for the asset in prior years. Any increase in excess of this amount is treated as a revaluation increase.

**e) Leases:**

**As a Lessee:**

The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- I. the contract involves the use of an identified asset
- II. the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- III. the Company has the right to direct the use of the asset.

The Company recognises a right-of-use asset and a corresponding lease liability with respect to all lease agreements in which it is the lessee, except for short-term leases (defined as leases with a lease

**Cello Houseware Private Limited**

**CIN : U25209MH2021PTC362199**

**Notes to the financial statements as at March 31, 2023**

**All amounts are ₹ in lakhs unless otherwise stated**

term of 12 months or less) and leases of low value assets. For these leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The lease liability is initially measured at amortised cost at the present value of the lease payments that are not paid at the commencement date, discounted by using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- I. fixed lease payments (including in-substance fixed payments), less any lease incentives;
- II. variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- III. the amount expected to be payable by the lessee under residual value guarantees;
- IV. the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- V. payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the Balance Sheet. The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made. The Company remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- I. the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- II. the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- III. a lease contract is modified, and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

The right-of-use assets are presented as a separate line in the Balance Sheet. The right-of-use assets are initially recognised at cost which comprises of the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Whenever the Company incurs an obligation for

costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured. The costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Company expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

**As a Lessor:**

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

The Company applied Ind AS 116 "Leases" to all lease contracts, except those which are exempted under this standard, using the modified retrospective approach, on the date of initial application.

Following is the summary of practical expedients elected on initial application (on a lease-by-lease basis):

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date
2. Applied the exemption not to recognize ROU assets and liabilities for leases with less than 12 months of lease term on the date of initial application
3. Used hindsight, such as in determining the lease term if the contract contains options to extend or terminate the lease.

**f) Inventories:**

Inventories of finished goods are stated at the lower of cost and net realizable value. Cost comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the first in first out (FIFO) cost method. Net realizable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

**g) Cash and cash equivalents:**

Cash and cash equivalent in the Balance Sheet and Statement of Cash Flows comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are

subject to an insignificant risk of changes in value.

#### **h) Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts.

#### **Financial assets**

##### **Initial recognition and measurement**

Financial assets are initially recognised when the Company becomes a party to the contractual provisions of the instrument. All financial assets other than those measured subsequently at fair value through profit and loss, are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset.

##### **Subsequent measurement:**

For the purpose of subsequent measurement, financial assets are classified in following categories:

- Amortised cost,
- Fair value through profit or loss (FVTPL)
- Fair value through other comprehensive income (FVTOCI)

on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

##### Amortised cost:

A financial instrument is measured at the Amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

##### **Derecognition**

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e., removed from the Company's statement of financial position) when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Company has transferred its rights to receive cash flow from the asset.

##### **Impairment of financial assets**

In accordance with Ind-AS 109, the Company applies Expected Credit Loss ("ECL") model for

measurement and recognition of impairment loss on the financial assets measured at Amortised cost and debt instruments measured at FVOCI.

Loss allowances on trade receivables are measured following the 'simplified approach' at an amount equal to the lifetime ECL at each reporting date. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analyzed. In respect of other financial assets, the loss allowance is measured at 12-month ECL only if there is no significant deterioration in the credit risk since initial recognition of the asset or asset is determined to have a low credit risk at the reporting date.

### **Financial liabilities**

#### **Initial recognition and measurement:**

Financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

Financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss, transaction costs that are directly attributable to its acquisition or issue.

#### **Subsequent measurement:**

Subsequent measurement is determined with reference to the classification of the respective financial liabilities.

#### **Financial Liabilities at Fair Value through Profit or Loss (FVTPL):**

A financial liability is classified as Fair Value through Profit or Loss (FVTPL) if it is classified as held-for trading or is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and changes therein, including any interest expense, are recognised in the Statement of Profit and Loss.

#### **Financial Liabilities at Amortised cost:**

After initial recognition, financial liabilities other than those which are classified as FVTPL are subsequently measured at Amortised cost using the effective interest rate ("EIR") method.

Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The Amortisation done using the EIR method is included as finance costs in the Statement of Profit and Loss.

### **Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

**Notes to the financial statements as at March 31, 2023**

**All amounts are ₹ in lakhs unless otherwise stated**

**Offsetting of financial instruments**

Financial assets and financial liabilities are offset, and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

**i) Provisions, Contingent Liabilities, Contingent Assets and Commitments**

A provision is recognised when the enterprise has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognised as finance cost.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, but their existence is confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. Contingent assets are not recognised till the realization of the income is virtually certain. However, the same are disclosed in the Financial Statements where an inflow of economic benefit is probable.

**j) Revenue recognition**

**Sale of goods and Services**

The Company derives revenues primarily from sale of Consumer Products comprising of manufacturing and dealing in thermoware, household and melamine products.

The Company recognizes revenue when it satisfies a performance obligation in accordance with the provisions of contract with the customer. This is achieved when control of the product has been transferred to the customer, which is generally determined when title, ownership, risk of obsolescence and loss pass to the customer and the Company has the present right to payment, all of which occurs at a point in time upon shipment or delivery of the product.

The Company considers shipping and handling activities as costs to fulfil the promise to transfer the related products and the customer payments for shipping and handling costs are recorded as a component of revenue. In certain customer contracts, shipping and handling services are treated as a distinct separate performance obligation and the Company recognises revenue for such services when the performance obligation is completed.

**Cello Houseware Private Limited**

**CIN : U25209MH2021PTC362199**

**Notes to the financial statements as at March 31, 2023**

**All amounts are ₹ in lakhs unless otherwise stated**

The Company considers the terms of the contract in determining the transaction price. The transaction price is based upon the amount the entity expects to be entitled to in exchange for transferring of promised goods and services to the customer after deducting incentive programs, included but not limited to discounts, volume rebates etc.

For incentives offered to customers, the Company makes estimates related to customer performance and sales volume to determine the total amounts earned and to be recorded as deductions. The estimate is made in such a manner, which ensures that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. The actual amounts may differ from these estimates and are accounted for prospectively.

No element of significant financing is deemed present as the sales are made with a credit term, which is consistent with market practice.

Revenue from rendering of services is recognized over the time by measuring the progress towards complete satisfaction of performance obligations at the reporting period.

#### **Contract balances**

##### Trade receivables:

A receivable represents the Company's right to an amount of consideration that is unconditional.

##### Contract liabilities:

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made. Contract liabilities are recognized as revenue when the Company performs under the contract.

#### **k) Other Income**

##### Interest Income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

##### Dividend income

Dividends are recognised in the Statement of Profit and Loss on the date on which the Company's right to receive payment is established.

#### **l) Borrowing costs**

Borrowing costs consist of interest and other costs that the Company incurs in connection with the

borrowing of funds. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are charged to Statement of Profit and Loss.

**m) Foreign currency**

Foreign currency transactions:

Foreign currency transactions are recorded on initial recognition in the functional currency using the exchange rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date.

Exchange differences arising on the settlement or translation of monetary items are recognised in Statement of Profit and Loss in the year in which they arise.

**n) Employee Benefits**

**Short-term Employee benefits**

Liabilities for wages and salaries, bonus and ex gratia including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are classified as short-term employee benefits and are recognised as an expense in the Statement of Profit and Loss as the related service is provided.

Certain employees of the Company are entitled to compensated absences based on statutory provisions. The Company records an obligation for compensated absences in the period in which the employee renders the services that increases this entitlement.

A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

**Post-Employment Benefits**

Defined Contribution Plans:

A defined contribution plan is a post-employment benefit plan under which a Company pays specified contributions to a separate entity and has no obligation to pay any further amounts. The Company makes contribution to provident fund in accordance with Employees Provident Fund and Miscellaneous Provisions Act, 1952 and Employee State Insurance. Contribution paid or payable in respect of defined contribution plan is recognised as an expense in the year in which services are rendered by the employee.

Defined Benefit Plans:

The Company's gratuity benefit scheme is a defined benefit plan. The liability is recognised in the Balance Sheet in respect of gratuity is the present value of the defined benefit/obligation at the balance sheet date less the fair value of plan assets, together with adjustments for unrecognized

actuarial gain losses and past service costs. The defined benefit/obligation are calculated at balance sheet date by an independent actuary using the projected unit credit method.

Re-measurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in other comprehensive income (OCI).

**o) Taxation**

Income tax expense /income comprises current tax expense /income and deferred tax expense /income. It is recognised in the Statement of Profit and Loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income. In which case, the tax is also recognised directly in equity or other comprehensive income, respectively.

Current tax

Current tax comprises the expected tax payable or recoverable on the taxable profit or loss for the year and any adjustment to the tax payable or recoverable in respect of previous years. It is measured at the amount expected to be paid to (recovered from) the taxation authorities using the applicable tax rates and tax laws.

Current tax assets and liabilities are offset only if,

- the Company has a legally enforceable right to set off the recognised amounts; and
- intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purpose and the amount considered for tax purpose.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilized such reductions are reversed when it becomes probable that sufficient taxable profits will be available.

Unrecognized deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be recovered.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted by the end of the reporting year.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

**p) Dividend**

The Company recognizes a liability for any dividend declared but not distributed at the end of the reporting year, when the distribution is authorized and the distribution is no longer at the discretion of the Company on or before the end of the reporting year.

**q) Earnings per share:**

Basic earnings per share is computed using the net profit or loss for the year attributable to the shareholders' and weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders of the company and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

**r) Fair value measurement**

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- I. In the principal market for the asset or liability, or
- II. In the absence of a principal market, in the most advantageous market for the asset or liability.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

**CIN : U25209MH2021PTC362199**

**Notes to the financial statements as at March 31, 2023**

**All amounts are ₹ in lakhs unless otherwise stated**

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

**s) Government Grant:**

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognized in the Statement of Profit and Loss over the period necessary to match them with the costs that they are intended to compensate and presented within other operating income. Government grant related to assets are presented by deducting the grant from the carrying amount of the asset.

**t) Cash Flow Statement**

Cash flows are reported using the indirect method, whereby profit / (loss) for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. Cash flows for the year are classified by operating, investing and financing activities.

**u) Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company.

**v) Recent Accounting Pronouncements**

The Ministry of Corporate Affairs (MCA) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023 as below:

**I. Ind AS 1 – Presentation of Financial Statements**

The amendments require companies to disclose the material accounting policies rather than significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements

**II. Ind AS 12 – Income Taxes**

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

**Cello Houseware Private Limited**

**CIN : U25209MH2021PTC362199**

**Notes to the financial statements as at March 31, 2023**

**All amounts are ₹ in lakhs unless otherwise stated**

**III. Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors**

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty.

The Company is assessing the impact of these changes and will accordingly incorporate the same in the financial statements for the year ending March 31, 2024.

**3. Transition to Ind AS**

The Company has prepared the opening Balance Sheet as per Ind AS by recognizing, derecognizing or reclassifying items of assets and liabilities from previous GAAP (Accounting Standards notified under Section 133 of the Companies Act, 2013, read together with Rule 7 of the Companies (Accounts) Rules, 2014 and Companies (Accounting Standards) Amendment Rules, 2016) to Ind AS as per the requirements set out by Ind AS, and applying Ind AS in measurement of recognised assets and liabilities. However, this principle is subject to the certain exception and certain optional exemptions availed by the Company as detailed below.

**i. Deemed cost for property, plant and equipment, and intangible assets**

With effect from June 02, 2021, Cello Industries (the "erstwhile partnership firm") has been converted to Cello Houseware Private Limited. Pursuant to the provisions Chapter XXI, Part I of the Companies Act, 2013, all the assets and liabilities of the erstwhile partnership firm have been transferred to the Company. Accordingly, adjustments made to the carrying amounts of property, plant and equipment, and intangible assets of the erstwhile partnership firm to conform with Ind AS as on the transition date, have been carried forward to the Financial Statements of the Company as explained in note 2.1 (a) and note 43.

**ii. Derecognition of financial assets and financial liabilities**

The Company has applied the derecognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after the transition date.

**iii. Impairment of financial assets**

The Company has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date. Further, the Company has not undertaken an exhaustive search for information when determining, at the date of transition to Ind ASs, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

**Cello Houseware Private Limited**

**CIN : U25209MH2021PTC362199**

**Notes to the financial statements as at March 31, 2023**

**All amounts are ₹ in lakhs unless otherwise stated**

**iv. Leases**

The Company has applied paragraphs 9-11 of Ind AS 116 to determine whether an arrangement existing at the transition date contains a lease on the basis of facts and circumstances existing at that date.

Following is the summary of practical expedients elected on initial application (on a lease-by-lease basis):

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date
2. Applied the exemption not to recognize ROU assets and liabilities for leases with less than 12 months of lease term on the date of initial application
3. Used hindsight, such as in determining the lease term if the contract contains options to extend or terminate the lease.

35.1 The Company did not expect any outflow of economic resources in respect of the above and therefore no provision was made in respect thereof.

**36 Segment information**

36.1 The Company has identified one operating segment viz, "Consumer Products" which is consistent with the internal reporting provided to the Board of Directors, who has been identified as the chief operating decision maker (CODM). The CODM is responsible for allocating resources and assessing performance of the operating segment of the Company.

**36.2 Geographical information**

The Company presently caters to only domestic market i.e., India and hence there is no revenue from external customers outside India nor any of its non-current asset is located outside India.

**36.3 Information about major customers**

Revenue from operations includes revenue arising from sales of goods of ₹ 18,358.01 lakhs (period ended March 31, 2022: ₹ 13,105.34 lakhs) which arose from sales to its two (period ended March 31, 2022: one) major customers which account for 98.37% (year ended March 31, 2022: 93.35%) of the total revenue.

**37 Employee benefit plans****37.1 Defined contribution plans:**

The Company participates in Provident fund as defined contribution plans on behalf of relevant personnel. Any expense recognised in relation to provident fund represents the value of contributions payable during the period by the Company at rates specified by the rules of provident fund. The only amounts included in the balance sheet are those relating to the prior months contributions that were not paid until after the end of the reporting period.

**(a) Provident fund and pension**

In accordance with the Employee's Provident Fund and Miscellaneous Provisions Act, 1952, eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary. The contributions, as specified under the law, are made to the provident fund administered and managed by Government of India (GOI). The Company has no further obligations under the fund managed by the GOI beyond its monthly contributions which are charged to the statement of Profit and Loss in the period they are incurred. The benefits are paid to employees on their retirement or resignation from the Company.

Contribution to defined contribution plans, recognised in the statement of profit and loss for the year under employee benefits expense, are as under:

Particulars	For the year ended March 31, 2023	For the period from June 2, 2021 to March 31, 2022

iv) Employer's contribution to National Pension Scheme	7.82	3.82
<b>Total</b>	<b>45.61</b>	<b>30.51</b>

**(b) Defined benefit plans:****Gratuity**

The Company has an obligation towards gratuity, a funded defined benefit retirement plan covering all employees. The plan provides for lump sum payment to vested employees at retirement or at death while in employment or on termination of the employment of an amount equivalent to 15 days salary, as applicable, payable for each completed year of service. Vesting occurs upon completion of five years of service. The Company accounts for the liability for gratuity benefits payable in the future based on an actuarial valuation. The Company makes annual contributions (from year ended March 31, 2023 onwards) to gratuity fund managed by Kotak Mahindra Life Insurance Company Limited.

The most recent actuarial valuation of the present value of the defined benefit obligation was carried out for the year ended March 31, 2023 by an independent actuary. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

**(A) Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are****(1) Salary risk:**

The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

**(2) Interest rate risk**

A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

**(3) Investment risk:**

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

**(4) Mortality risk:**

Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

**(B) Principal actuarial assumptions used:**

The principal assumptions used for the purposes of the actuarial valuations were as follows.

Particulars	As at March 31, 2023	As at March 31, 2022
1. Discount rate	7.15%	6.25%

**(K) Sensitivity analysis**

The Sensitivity analysis below has been determined based on reasonably possible change of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant. These sensitivities show the hypothetical impact of a change in each of the lied assumptions in isolation. While each of these sensitivities holds all other assumptions constant, in practice such assumptions rarely change in isolation and the asset value changes may offset the impact to some extent. For presenting the sensitivities, the present value of the Defined Benefit Obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the Defined Benefit Obligation presented above. There was no change in the methods and assumptions used in the preparation of the Sensitivity Analysis from previous year.

**(a) Interest rate risk:**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk because the borrowings are from related parties and carry fixed or zero interest rates.

**(b) Foreign currency risk:**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities denominated in foreign currency and thus the risk of changes in foreign exchange rates relates primarily to trade payables and advances.

**Particulars of unhedged foreign currency exposure as at the reporting date (in respective currency):**

**(c) Product price risk**

In a potentially inflationary economy, the Company expects periodical price increases across its product lines. Product price increases which are not in line with the levels of customers' discretionary spends, may affect the business/ sales volumes. In such a scenario, the risk is managed by offering judicious product discounts to customers to sustain volumes. The Company negotiates with its vendors for purchase price rebates such that the rebates substantially absorb the product discounts offered to the customers. This helps the Company to protect itself from significant product margin losses. This mechanism also works in case of a downturn in the retail sector, although overall volumes would get affected.

**(ii). Credit risk management**

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade

**(a) Trade receivables**

The Company has adopted a policy of dealing with only credit worthy counterparties in case of institutional customers and the credit risk exposure for institutional customers is managed by the Company by credit worthiness checks.

**(b) Financial instruments and cash deposits**

Credit risk from balances with banks and financial institutions is managed by the Company's in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Company's Board of Directors on an annual basis and may be updated throughout the year subject to approval of the Company's Finance Committee. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through a counterparty's potential failure to make payments.

**(iii). Liquidity risk management**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. Cash flow from operating activities provides the funds to service the financial liabilities on a day-to-day basis. The Company regularly monitors the rolling forecasts to ensure it has sufficient cash on an on-going basis to meet operational needs.

**Liquidity risk table**

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

**42 Ratio Analysis and its elements**

The Company has not averaged the numbers for the period ended March 31, 2022 as considered it was the first year of incorporation of the Company and hence previous years numbers were not available in the computation of below ratios. Consequently the % change given below is only for indicative purposes and does not reflect the actual variance and cannot be considered as an indicator of financial performance. Accordingly wherever one of the components of the below ratio is not averaged, explanation for any change in ratio more than 25% when compared to the year ended March 31, 2023 has not been given since the same are not comparable on account of the reasons stated above. However, where both the components of ratio are extracted from the statement of assets and liabilities, the reason of variance has been given for variance greater than 25% in the ratio for the period ended March 31, 2023, when compared to the ratio for year ended 31 March, 2022.

**a) Current Ratio = current assets divided by current liabilities**

Particulars	As at March 31, 2023	As at March 31, 2022
Current assets	7,865.72	10,573.56
Current liabilities	5,826.13	11,668.47
<b>Ratio (In times)</b>	<b>1.35</b>	<b>0.91</b>
<b>% Change from previous year</b>	<b>48.35%</b>	

**Reason for change more than 25%:**

In FY 2022-23, the Company has repaid more than 50% of its total current liability comprising its borrowings, trade payables and other financial liabilities etc vis-a-vis FY 2021-22 whereas company has reduced its volume of current asset for less than 30% in FY 2022-23 by efficiently using its internal accrual from sundry debtors and other current assets.

**b) Return on Equity Ratio = Net profit after tax divided by average equity**

Particulars	For the year ended March 31, 2023	For the period from June 2, 2021 to March 31, 2022
Net profit after tax	3,582.26	2,576.28
Average equity*	3,941.58	2,502.18
<b>Ratio</b>	<b>0.91</b>	<b>1.03</b>
<b>% Change from previous year</b>	<b>-11.73%</b>	

\*Average equity represents the average of opening and closing total equity. However for the period ended March 31, 2022, equity are not averaged as it was first year of operations.

**c) Inventory Turnover Ratio = Cost of goods sold divided by average inventory**

Particulars	For the year ended March 31, 2023	For the period from June 2, 2021 to March 31, 2022
Cost of goods sold	9,465.74	8,107.43
Average Inventory*	5,172.58	5,061.74
<b>Ratio (In times)</b>	<b>1.83</b>	<b>1.60</b>
<b>% Change from previous year</b>	<b>14.25%</b>	

\*Average inventory represents the average of opening and closing total inventory. However for the period ended March 31, 2022, inventory are not averaged as it was first year of operations.

**d) Trade Receivables turnover ratio = Credit Sales divided by average trade receivables**

Particulars	For the year ended March 31, 2023	For the period from June 2, 2021 to March 31, 2022
Credit Sales*	18,662.47	14,039.62
Average Trade Receivables #	3,420.33	4,846.12
<b>Ratio (In times)</b>	<b>5.46</b>	<b>2.90</b>
<b>% Change from previous year</b>	<b>88.34%</b>	

\* Credit sales includes sale of products, services and scrap sales.

# Average Trade receivables represents the average of opening and closing trade receivables. However for the period ended March 31, 2022, trade receivables are not averaged as it was first year of operations.

**Reason for change more than 25%:**

There is 32.93% increase in sales during FY 2022-23 vis-à-vis 2021-22 which should result in increase in same proportion in increase of trade receivable but due to efficient recovery of trade receivable there is reduction in average trade receivables which resulted into increase in Trade Receivable Turnover Ratio.

**e) Trade payables turnover ratio = Credit purchases divided by average trade payables**

Particulars	For the year ended March 31, 2023	For the period from June 2, 2021 to March 31, 2022
Credit Purchases	9,687.42	8,222.41
Average Trade Payables #	1,209.31	1,444.86
<b>Ratio (In times)</b>	<b>8.01</b>	<b>5.69</b>
<b>% Change from previous year</b>	<b>28.96%</b>	

# Average Trade Payables represents the average of opening and closing trade payables. However for the year ended March 31, 2022, Trade Payables are not averaged as it was first year of operations.

**Reason for change more than 25%:**

Since, there is an increase of 32.93% in Sales which resulted in 17.82% increase in purchases but due to recovery made in trade receivable, Company could reduce its average trade payable upto 85.52% as compared to previous year which resulted into increase in Trade payable Turnover Ratio

**f) Net Capital Turnover Ratio = Sales divided by Net Working capital**

Particulars	For the year ended March 31, 2023	For the period from June 2, 2021 to March 31, 2022
Sales (A)	18,662.47	14,039.62
Current Assets (B)	7,865.72	10,573.56
Current Liabilities (C)	5,826.13	11,668.47
Net Working Capital (D = B - C)	2,039.59	(1,094.91)
<b>Ratio (In times) (E = A / D)</b>	<b>9.15</b>	<b>-12.82</b>
<b>% Change from previous year</b>	<b>-171.36%</b>	

**Reason for change more than 25%:**

The Company has efficiently improved It's working Capital vis-à-vis Previous Year and due to 32.93% increase in Sales, the Net Capital Turnover Ratio has been improved during Current Financial Year from -12.82 to 9.15

**g) Net profit ratio = Net profit after tax divided by Sales**

Particulars	For the year ended March 31, 2023	For the period from June 2, 2021 to March 31, 2022
Net profit after tax	3,582.26	2,576.28
Sales	18,662.47	14,039.62
<b>Ratio</b>	<b>19%</b>	<b>18%</b>
<b>% Change from previous year</b>	<b>4.60%</b>	

**h) Return on Capital employed (pre -tax) = Earnings before interest and taxes (EBIT) divided by Capital Employed**

Particulars	For the year ended March 31, 2023	For the period from June 2, 2021 to March 31, 2022
Profit before tax (A)	4,817.23	3,390.49
Finance cost (B)	1.08	11.93
<b>EBIT (C) = (A) + (B)</b>	<b>4,818.31</b>	<b>3,402.42</b>
Tangible net worth* (D)	5,341.81	2,450.65
Total debt (E)	4,605.46	9,110.24
Deferred tax liability (F)	-	-
<b>Capital Employed (G) = (D) + (E) + (F)</b>	<b>9,947.27</b>	<b>11,560.89</b>
<b>Ratio (In %) (H) = (C) / (G)</b>	<b>48%</b>	<b>29%</b>
<b>% Change from previous year</b>	<b>64.59%</b>	

\*Tangible net worth = Net worth (Shareholder's fund) less Intangible assets less Deferred Tax Assets

**Reason for change more than 25%:**

During FY 2022-23, the company had adopted a policy of reducing its current liability out of its current asset which resulted into reduction in capital employed vis-a-vis previous year

i) **Debt Equity ratio = Total debts divided by Total Equity**

Particulars	As at March 31, 2023	As at March 31, 2022
Total Debts	4,605.46	9,110.24
Shareholder's funds	5,380.97	2,502.18
<b>Ratio (In times)</b>	<b>0.86</b>	<b>3.64</b>
<b>% Change from previous year</b>	<b>-76.49%</b>	

**Reason for change more than 25%:**

Due to repayment of borrowing which comprises more than 50% of total debt of previous years by efficient utilisation of fund out of trade receivable and inventories, there is decrease in debt equity ratio

j) **Debt service coverage ratio= Earnings available for debt services dividend by total interest and principal repayments.**

<b>Debt service</b>		
Interest (G)	-	-
Lease payments (H)	71.94	72.95
Principal repayments (I)	4,594.07	9,098.85
Total Interest and principal repayments (J = G + H + I)	<b>4,666.01</b>	<b>9,171.80</b>
<b>Ratio (In times) (J = F/ I)</b>	<b>0.84</b>	<b>0.31</b>
<b>% Change from previous year</b>	<b>168.95%</b>	

**Reason for change more than 25%:**

Since company has repaid its interest bearing borrowing during the Financial Year 2021-22, the company does not have to pay any interest on borrowing during the year March, 2023 so there is increase in Debt Service Coverage Ratio

**43 Conversion from partnership firm**

With effect from June 2, 2021, Cello Industries (the "erstwhile partnership firm") has been converted to Cello Houseware Private Limited. Pursuant to the provisions Chapter XXI, Part I of the Companies Act, 2013, the assets and liabilities of the erstwhile partnership firm have been transferred to the Company.

Cello World Limited (formerly known as Cello World Private Limited) Limited (the parent company of Cello Houseware Private Limited with effect from July 16, 2021) and all of its subsidiaries (collectively referred as the "Group"), including the Company and the erstwhile firm are required to prepare financial statements in accordance with the Indian Accounting Standards (referred to as "Ind AS") as prescribed under section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules.

Upto the period ended March 31, 2022, the Group prepared its financial statements in accordance with the requirements of previous GAAP, which includes Standards notified under the Companies (Accounting Standards) Rules, 2006. The date of transition to Ind AS for the Group is April 01, 2021.

Pursuant to the requirements under Appendix C of Ind AS 103, the financial information related to the Company, including the financial information of the erstwhile firm was restated from the earliest period presented in the consolidated financial statements of the Group.

**Note:** Under previous GAAP, total comprehensive income was not reported. Therefore, the above reconciliation starts with profit under the previous GAAP.

**43.2 Impact of Ind AS adoption on the statements of cash flows for the year ended March 31, 2022.**

There were no significant reconciliation items between cash flows prepared under Indian GAAP and those prepared under Ind AS.

### 43.3 Notes to first-time adoption:

#### a. Actuarial gains and losses

The impact is on account of measurement of employee benefits obligations as per Ind AS 19. Under previous GAAP, actuarial gains and losses were recognised in profit and loss. Under Ind AS, the actuarial gains and losses forming part of remeasurement of the net defined benefit liability / asset, are recognised in the Other Comprehensive Income (OCI) under Ind AS instead of profit or loss.

#### b. Leases

Under previous GAAP, the lease payment made for the properties taken on lease is recognised as Rent Expenses in the Statement of Profit and Loss for the period. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees. Under Ind AS, the Company should recognise right-to-use asset (ROU asset) and lease liability for the properties taken on lease subject to exemption provided in the Ind AS 116.

On application of Ind AS 116, the nature of expenses has changed from lease rent to depreciation cost for the right-to-use asset, and finance cost for interest accrued on lease liability. There is no change in accounting by the lessor.

#### c. Pre-incorporation expenses

Under the previous GAAP, the pre-incorporation expenses were treated as a prepaid asset, to be amortised from the date when the Company becomes operative. Ind AS requires these expenses to be charged to the profit & loss account in the period in which the expenses are incurred.

#### d. Depreciation on property, plant and equipment and intangible assets

The depreciation on property, plant and equipment and intangible assets transferred on account of conversion of partnership form has been computed in accordance with Companies Act, 2013 and Ind AS 16, on the deemed cost (i.e. carrying value as per previous GAAP) from the date of transition to Ind AS.

#### e. Deferred Tax

The previous GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using balance sheet approach which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. Various transitional adjustments has resulted in recognition of temporary differences.

44 No significant adjusting event occurred between the balance sheet date and date of the approval of these financial statements by the Board of Directors of the Company requiring adjustment or disclosure.

45 Previous year's figures have been regrouped/reclassified wherever necessary to correspond with the current year's classification/disclosure.

46 The financial statements were approved by the Board of Directors in their meeting held on July 31, 2023.
